

Narcos

Basic verification report v1.0.0

Game description

Gonzo's Quest is videoslot that using avalanche mechanic with multiplayer. Game features: Freespins (freefall) and Wild symbol. Avalanche mechanic: symbols from winning combination are removed, from the reels and the symbols above it falling down to create new possible wins combination. Each next win has higher multiplier (multiplier in base game is x1,x2,x3,x5). As soon as 3+freefall symbols appear on a betline freefall session will be triggered (players will awarded by 10 freefalls). Freefalls could be retriggered during freefall session. Multiplier in freefall session is x3,x6,x9,x15. Wilds symbol substitute for all symbols.
